

**\*\* MEDIA ALERT \*\***

**Kona's Crate adds new campaign, more levels and novice mode  
to iOS and Android versions**

*There's even more to enjoy in the addictive, twin-engine excitement  
that has resulted in gamers playing more than 60 million levels.*

**CINCINNATI, OHIO (USA) – JANUARY 26, 2012** – [indiePub](http://indiePub.com) has updated the iOS and Android versions of its addictive physics-based platform racer, **Kona's Crate**, to version 3.2.0.

Beginning today (January 26, 2012), mobile gamers can enjoy even more **Kona's Crate** with a new campaign, 20 new levels, five new bonus levels and a much-requested novice mode featuring Jawesome Straps.

Created by independent developers, Darkwind Media, **Kona's Crate** takes place in a mystical world where players must carefully deliver a crate of stars to Chief Kona. Skillfully navigate a crate on a jet-powered platform through tight spaces and around sharp corners while avoiding tricky obstacles to complete their delivery in time and win Chief Kona's approval.

The new Jawesome Straps are the key to **Kona's Crate** novice mode, strapping the crate to its jet-powered platform, making it easier to get through those hard-to-finish levels. Now you don't have to worry about maintaining precise balance as you master each level so you can maximum your stars when you take off the straps.

The **Kona's Crate** updates include:

- The new Arid Wasteland campaign with twenty new levels.
- A new Bonus Level system with five new unlockable bonus levels.
- Five new Achievements to earn.
- Novice mode with Jawesome Straps to help keep the crate in place so you can master the more difficult levels.

**Kona's Crate** now include five campaigns with more than 100 increasingly challenging levels to solve, dozens of achievements to earn and a slew of bonus levels to unlock.

**Kona's Crate** is available now for most mobile devices and computers including [PC](#), [Mac](#), Android™ and Android Tablet (via [Android Market](#) or [Amazon App Store](#)), [Apple® iPhone®](#), [iPod® Touch](#) and [Apple iPad®](#).

Find your out more about **Kona's Crate** and Chief Kona at [konascrate.com](http://konascrate.com) and become a fan of the game on [Facebook](#).
