

## indiePub's *Storm* available now for PC

Enjoy a relaxing journey through the seasons  
with the long-awaited indie puzzle game, ***Storm***

**CINCINNATI, OHIO (USA) – October 23, 2012** – It is with euphoric bliss that independent game publisher and developer, [indiePub Entertainment, Inc.](http://indiepub.com) (US OTC: IPUB), announces the official release of ***Storm***, now available for PC (Windows).

Take a deep breath and prepare for a tranquil journey through the seasons with ***Storm***, an ambient, ethereal experience where you use natural phenomena to guide a simple seed to fertile soil so it can take root and spring to life.

Embrace the subtleties and strengths of nature to move a broken branch, fill a small pond or make snow fall to solve puzzles and create natural paths. Take your time and explore nature's nooks or simply enjoy the ambiance as you float, blow and bounce a seed to the perfect place to take root. Relax and enjoy Adventure, Challenge or Spirit modes, each set in gorgeous environments and enhanced by soothing, nature-inspired soundscapes.

Some of ***Storm***'s elements include:

- **Natural Controls** - Use either an Xbox 360 Controller for Windows or a mouse and keyboard to manipulate nature's elements at your own pace.
- **Gorgeous Environments** - Interactive environments react to your every move as you make a path for your seed's journey through 49 lush levels.
- **Ambient Soundtrack** – Enjoy the soothing soundscapes created by indie developer and musician Terence Lee who also came up with the original concept for the game.

- **Collect Hidden Goodies** – Unearth hidden orbs to unlock exclusive content.
- **Three Modes Across Four Seasons** - Choose between Adventure, Challenge and Spirit modes for multiple levels of enjoyment.
- **Multi-Language Support** – Select from English, French, Italian, German and Spanish.

**Storm** is available worldwide for PC (Windows) through the **Storm** web site at <http://stormthegame.com> for \$14.99.
