**indiePub's Totem Destroyer Deluxe
now available for Mac**

Addictive logic puzzle game challenges players' tactical skills.

CINCINNATI, OH (USA) – October 3, 2011 – indiePub, a subsidiary of Zoo Entertainment, Inc. (NASDAQ CM: ZOOG), today announced the availability of logic puzzle game **Totem Destroyer Deluxe** for Mac.

In **Totem Destroyer Deluxe**, players must strategically destroy a required number of totems to balance golden idols, known as Tots, and prevent them from touching the ground. Each block and platform possesses its own puzzling properties and capabilities, challenging players' critical thinking skills. Platforms can attract, bounce and drag idols while blocks can explode, stick and even defy gravity, all in a battle against the clock.

The third game in popular *Totem* franchise from Cats in The Sky, **Totem Destroyer Deluxe** follows *Totem Destroyer* and *Totem Destroyer II* (more than 2 million game-plays to date) with the addition of seven new blocks and platforms accompanied by HD artwork and complex game mechanics. With 75 challenging levels across three themes - Pyramid, Platform and Mixed - players are continually tested as they perfect their logic skills and progress through the game.

Totem Destroyer Deluxe will be available for $1.99 for a limited time via the Mac Store (indiePub.com/tdd/mac) before it returns to $4.99. **Totem Destroyer Deluxe** is also available for PC (indiePub.com/tdd/amazon) for $4.99.

For more information about the game visit the *Totem Destroyer Deluxe* web site (indiepub.com/tdd/).
