indiePub's Turkey Stuffin' available now for Android

Celebrate Thanksgiving by stuffing silly stuff into a turkey's butt using your favorite Android mobile device.

CINCINNATI, OHIO (USA) – November 13, 2012 – Independent game publisher and developer, [indiePub Entertainment, Inc.](#) (US OTC: IPUB), is celebrating the gamification of holiday food preparation with **Turkey Stuffin'**, available now for Android-based devices.

Start stuffing stuff in a turkey's butt in **Turkey Stuffin'**, a hilarious quick-play game that pokes fun at traditional holiday cooking.

You have 30 seconds to jam a fine fowl full of tasty concoctions and prove your poultry stuffing prowess by creating the fattest, tastiest turkey in the world.

But **Turkey Stuffin'** ain't all rosemary and yams. Overstuff the bird and you'll yield a massive mess that no Pilgrim should ever have to witness.

Use the correct combinations of items to mix secret fowl fattening recipes including The Turdrunken, Fowl Language, Return to Sender and Butter Ball.

Turkey Stuffin' truly is a butt load of fun.

FINE FEATHERED FEATURES:

- **Purdy Birdy Pictures:** A humorously illustrated turkey.
- **Tons o' Stuff-ins:** Scads of stuff-ins including finger foods, condiments, silverware, electronics and more!
- **Silly Sounds:** An extensive soundtrack of silly and stupid turkey sounds.
- **Scores Galore:** A pitiful excuse of a rating system that tells you exactly how tasty and fat you made your turkey.
